

Zerust[®] ICT[®] Pipe Strips

TECHNOLOGY THAT PROTECTS METAL FROM CORROSION

FEATURES

- Proven corrosion protection
- Easy-to-use
- Non-toxic & odorless
- Protection for multiple metal types
- Long-term protection for pipes

BENEFITS

- Reduce corrosion incidences
- Reduce need for inspection & rework
- Save money & resources
- Comes with Zerust[®] global on-site support

Zerust[®] ICT[®] Pipe Strips are one of the longest standing products in the Zerust[®] product line. Use them to protect your pipes during storage or shipment.

PRODUCT INFORMATION

Zerust[®] ICT[®] Pipe Strips are a residue-free, long-term corrosion protection system for the interior surfaces of ferrous and non-ferrous pipes during shipment, storage or work-in-progress. Zerust[®] ICT[®] Pipe Strips are Zerust[®] ICT[®] Vapor Capsules assembled on long plastic strips that can be made to any length.

Zerust[®] ICT[®] Pipe Strips are ready-to-use and installation is easy—simply place the strip inside the pipe along its length and cap the ends. Zerust[®] ICT[®] Pipe Strips saturate the air inside of the pipe, protecting all interior surfaces from corrosion. Protected pipes are always ready to use. Simply uncap the pipes and pull the strip out.

APPLICATION EXAMPLES

ZERUST[®] ICT[®] PIPE STRIPS PROVIDE POWERFUL, LONG LASTING CORROSION PROTECTION TO INTERIOR SURFACES OF PIPES, SUCH AS NUCLEAR REACTOR TUBES - HELPING TO PREVENT DETERIORATION OF THE METAL IN LONG TERM STORAGE.

APPLICATION TYPE

CORROSION PROTECTION FOR:

ORDERING INFORMATION

■ AVAILABILITY/PART NUMBER

Model: PS2-10

40' strip, 10 capsules on 4' centers

Part Number: 525-M-00001

1 per package

Model: PS2-16

40' strip, 16 capsules on 2.5' centers

Part Number: 525-M-00002

1 per package

■ PROTECTION TYPE

Available in multimetal corrosion protection capability.

■ PROTECTION VOLUME

PS2-10: Protects pipes 2" - 12" inches in diameter

PS2-16: Protects pipes 12" - 24" inches in diameter

■ PROTECTION LIFE

Will protect metals for up to 1 year with proper usage. Limit air exchange within the enclosure to maximize the protection life.

■ SHELF LIFE

Shelf life of 1 year if stored out of direct sunlight, at 85° F or less and in original packaging.

OTHER PRODUCTS AVAILABLE

ICT® 400 Series: Packaging Papers

Acid-free, pH neutral corrosion inhibiting paper and poly paper offer short-term corrosion protection for metal parts.

ICT® 500 Series: Packaging Films

Our most widely used series of products. A variety of films offer short or long-term corrosion protection for parts and equipment during storage or shipment.

ICT® 600 Series: Rust Removers

Highly effective rust removers for light to severe rust removal. All ICT® 600 series rust removers are non-toxic, non-hazardous & non-corrosive.

ICT® 700 Series: Liquid Additives and Coatings

Temporary corrosion protection for parts in-between production processes, during storage, or for added protection to the ICT® 500 series products during ocean shipments.

ICT® 800 Series: Diffusers

Self-contained, portable products that diffuse Zerust® ICT® chemicals to protect metals within enclosures, such as tool boxes, electrical boxes, etc.

**Zerust® ICT® Pipe Strips are part of the ICT®800 Series of products.*
