Zerust® AxxaVis™ PX-10-HRD

Zerust®/Excor® AxxaVis™ PX-10-HRD is a powder additive that conditions hard water when deionized water is not available for metalworking applications. Use AxxaVis PX-10-HRD to treat tap water needed to dilute Zerust products. It can be used for many applications to prevent scale and scum caused by hard water.

When a quality water source is not available for metalworking applications, use AxxaVis PX-10-HRD to treat and improve plant water. Using it saves time and money by reducing issues caused by hard water. AxxaVis PX-10 is chemically stable and resistant to degrading across a wide pH range, even at elevated temperatures. It is also safe and environmentally friendly.*

Zerust products that require dilution, such as Axxatec™ aqueous-based rust preventatives and AxxaWash™ concentrates, need high quality water to work properly. Use PX-10-HRD to treat water used for dilution of Zerust products if deionized water is not available.

Dosage Instructions

Water Volume	Water Weight @ 70°F (21°C)	100 ppm CaCO ₃	300 ppm CaCO ₃	500 ppm CaCO ₃	700 ppm CaCO ₃
1 Liter	1000 g	0.42 g	1.26 g	2.1 g	2.94 g
1 Gallon	8.33 lbs	0.056 oz	0.17 oz	0.28 oz	0.39 oz

Application Example

Machined parts are protected from corrosion by Zerust Axxatec rust preventative diluted with tap water treated with Zerust AxxaVis PX-10-HRD.

Benefits

- Facilitates use of hard water
- Prevents scale and scum
- Works for all metal types and in a wide pH range
- Safe and non-hazardous*

Availability

Part Number:
 460-M-00001 25 lb case

Product Info

*Safe to use and handle. Product is not hazardous for people or the environment according to EU (CLP) or OSHA HazCom 2012 (US GHS).
