

# Zerust® Tube Strip VCI Diffuser

Zerust®/Excor® Tube Strip can help reduce repair and maintenance costs by preventing corrosion within tubes, pipes and gun barrels. Tube Strip is a flexible plastic product that diffuses Zerust Vapor Corrosion Inhibitors (VCIs). It can be cut to any length and fits into narrow tubes and pipes and other enclosed spaces.

A Zerust® ICT® Tube Strip VCI Diffuser tubing is made with proprietary Zerust formulations to protect ferrous metal tubes and pipes up to 3.5 inches in diameter from corrosion. Zerust Tube Strip is flexible, durable and can be trimmed to the length needed. They provide protection in tightly sealed tubes and pipes for up to 2 years. Zerust ICT Tube Strips are also perfect for protecting gun or rifle barrels.

Zerust Tube Strips are easy to install. Simply insert the Tube Strip inside a ferrous tube or pipe, and cap the ends tightly. VCI molecules diffuse from the Tube Strip and saturate the air inside of the pipe, protecting interior surfaces from corrosion. Zerust Tube Strip products do not leave residue or powder. Removal is quick, just uncap the pipe or tube and remove the Tube Strip. Zerust Tube Strip may be used with Zerust corrosion inhibitor liquids and packaging such as ICT weapon bags for additional long-term storage protection. Check with your local Zerust/Excor representative for the best corrosion protection system for your metal assets.

## Benefits

Safe\* and effective corrosion protection where traditional anti-corrosion methods can not be used.

Easy to install and remove

Does not leave behind residue or powder

Suitable for new equipment and to protect the reliability of existing equipment.

## Application Example

A Zerust Tube Strip is trimmed to just longer than the barrel of the pistol. It is then placed into an airtight gun case to provide protection from corrosion.

## Application Type

- Storage
- Shipping
- May be used with Zerust Packaging

\*Safe for people. This product does not pose a health hazard to users due to its classification as an article according to UN GHS, US OSHA HazCom and CA WHIMS regulations. Check REACH SDS for classification in EU.

## Specifications

<b>Product Information</b>	Zerust® Excor® Tube Strip is a flexible, hollow, plastic tube impregnated with Zerust VCI chemistry.
<b>Attributes</b>	Diameter of product is .25 in (6.3 mm) Yellow is the standard color. Other colors and diameters available upon request. Minimum order quantities apply.
<b>Protection Volume</b>	1 ft section will protect a volume of 0.3 ft <sup>3</sup> (0.008 m <sup>3</sup> )
<b>Protection Duration</b>	Up to 2 years
<b>Storage</b>	Store in a cool, dry place and away from sunlight for up to 2 years.
<b>Protected Metal Types</b>	Ferrous metal protection for steel, iron, and its alloys.

## Availability

Zerust Tube Strip is sold in rolls.

### Part Number

475-F-200001 1000'/roll

## Safety

- Safe for people. This product does not pose a health hazard to users due to its classification as an article according to UN GHS, US OSHA HazCom and CA WHIMS regulations. Check REACH SDS for classification in EU.
- Zerust VCI chemistry is safe for sensitive electronics. No galvanic effects, residues or changes in the properties of metals. The protective molecules dissipate upon opening of package.
